Western United School Visit Program

# SCHOOL PROGRAMS AND PRODUCTS

---

## Dear Schools!

As part of the Western United Football Club commitment to the community, our club has developed a range of engaging programs for primary and secondary schools that can be delivered by our qualified community coaching team.

## Our programs allow students to:

- Enjoy a fun environment in which to learn the game and perfect the skills.
- Interact with other children and enjoy the positive social experience that team sports provide.
- Join a pathway which can transition them into club-based activities at the local level.
- Be introduced to an internationally renowned sport played the world over.

If you are interested in booking, or just enquiring about our school programs, please reach out to us on the details below:
